

I am a PT PhD student at Cranfield SOM

I am just finalising my PhD and have submission deadline for Mid Sept 2018.

I am looking for help in a couple of areas:

- The collation, and assembly of my PhD into the University format
- Potentially suggest edits/improvements
- Highlight missing or problem references, graphs, tables etc
- Proof read the entire PhD

I wanted to check if you can help with any/all of these services?
